## CAREER GOALS

Aiming to Reduce the complexity and simplify the currently existing digital electronics systems.

## MAIN INTERESTS

- Web Development
- Digital electronics
- Robotics
- Game Development
- AI

## PROJECTS

- Decibel
- EOC Website
- Self Aware Robots - Major Project
- Vehicle Assistance Intelligence Network
- 8085 Android Simulator - Android App
- Pendula - Android game

## HOBBIES

- Travelling
- Game Development
- illustration painting
- Board games
- Voxel Art

## ACADEMIC HISTORY

**School Of Engineering - CUSAT**

B.Tech | Electrical And Electronics Engineering
- CGPA of 8.325 till 6th Sem Result

**12th | Christ Central School**
- Computer Science - 91.4%

**10th | Cluny School**
- CGPA : 9.0

## SKILLS

- Web Development
- Threejs
- C++ , Python ,javascript
- Game development
- RPA
- Circuit Design

## INTERNSHIPS AND TRAINING

- Internship in Machine Learning and RPA

- Attended 30 days of google cloud

- Industrial visit in Lower Periyar Hydroelectric Power Plant and Load Dispatch Center Kalamassery

- Participated in Electric Vehicle Charger design contest conducted by IEEE IA/IE/PELS Jt. Chapter

- Mentorship in IEEE ORE on Game Development

- Attended Workshops include:
  - Robotics
  - Web development
  - Electric Vehicle
  - C Programming
  - MS Excel
