

Mission :

Aiming to improve development in Robotics and Automation in Electrical Sector.

Profile Summing

- Electrical And Electronics Engineer
- Basic knowledge in C/C++ ,Python
- Unity Game Developer
- Attended Workshops in Robotics and Machine Learning
- Projects include
 - Vehicle Assistance Intelligence
 - Decibel
 - 8085 Simulator

Skills

- C / C++
- Python
- Logic Problem Analysis
- Unity Engine
- Circuit Analysis

Projects

- Vehicle Assistance Intelligence
- 8085 Microprocessor Simulator
- Decibel
- Pendula

Education

- B.Tech ,
Electrical And Electronics Engineering
School of Engineering , CUSAT

Workshops

- Robotics
- Machine Learning
- Python
- Excel
- C programming

Hobbies

- Illustration Painting
- Traveling
- Game development
- Reading
- Voxel Painting
